RUSSIDAN NADEE

Full Stack Developer

Versatile full stack developer with strong AI assisted development skills, comfortable working across multiple languages and frameworks, and quick to adapt to new tools, systems, and unfamiliar codebases.

WORK EXPERIENCE

Cloudcommerce Co. ltd - Full Stack Developer

May 2026 - Present

- Migrated legacy monolithic systems into new microservices, validating data accuracy against the production system before deployment.
- Analyzed and optimized database queries for datasets exceeding one million records by leveraging indexed queries and application level joins, reducing latency by approximately 99%.
- Remediated security vulnerabilities and strengthened input validation pre release.
- Built an internal web application for Customer Service teams to search, view, and track order and delivery status.
- Developed custom Deluge scripts to connect Zoho CRM and Zoho Desk.
- Always offered alternatives with trade off analysis to guide technical decisions.

Thai Parkerizing - Full Stack Developer Internship

Apr 2025 - Oct 2025

- Designed and developed an RFID based Asset Management System using Flutter, Node.js, and MySQL.
- Implemented real time asset tracking and synchronization, improving operational efficiency.
- Reduced implementation costs by 76% through an in house solution with a projected ROI within four years.

SKILL

Programming Languages

- JavaScript, TypeScript, Dart, Python, HTML, CSS

Frameworks & Runtimes

- Next.js, NestJS, Elysia, Express, Tailwind CSS, Flutter, Prisma, Node.js, Bun

Database

- MySQL, PostgreSQL

DevOps & Deployment

- Linux, Docker, AWS, Cloudflare, Vercel, Netlify, Railway, ArgoCD, Supabase

Developer Tools

- Git, Postman/Bruno, Sentry, SonarQube

EDUCATION

Silpakorn University

June 2022 - March 2026

Bachelor of Engineering in Electronics and Computer Systems Engineering

PROJECT

Money Tracker App

Next.js 16, TypeScript, Prisma ORM, Supabase

- Developed a personal finance application with Next.js, TypeScript, Prisma ORM, and Supabase.
- Integrated Gmail API to automatically import bank transactions and prevent duplicate records.

Russidan.com

Next.js, TypeScript, Tailwind CSS

- Designed and developed a personal portfolio website using Next.js and TypeScript.
- Optimized performance and user experience with modern web development practices.
- Built a responsive, SEO friendly portfolio website.
